Mover's Choice Partners with ARMSVision for Loss Control & Risk Assessment

Mover's Choice is pleased to bring a digital Loss Control & Risk Assessment service to our Moving & Storage customers. ARMSVision, an industry leader in loss control, creates tailored surveys to assess customers' risk, provide risk management recommendations, and deliver accurate and verified risk assessment data to our underwriters.

Benefits...

KNOWLEDGE IS POWER. Customers gain a better understanding of the potential for loss in their daily operations.

TIME-SAVING. Easy-to-use web-based app survey takes minutes as opposed to an onsite loss control visit.

ACCURACY. Highly accurate and verified risk assessment data provided to our underwriters.

ACTIONABLE INSIGHTS. Loss Control recommendations are provided along with a comprehensive report.

How it Works...

1st RISK REVIEW CUSTOMER SURVEY

Customers will receive a link to their customized survey.

- ✓ **Tool**
Web-based app is user-friendly and intuitive.
- ✓ **Topics**
Subcontractor Usage, Operations, OTR Trucking and Drivers, and Vehicle Maintenance.
- ✓ **Length**
Survey is designed to take no more than 30 minutes to complete.
- ✓ **Sample Survey Question**

Survey Questions

2.2: How long is the video stored? (Video footage can be an excellent tool in reviewing prior incidents which led to claims. Your insurer wants to know how long this important footage is stored.)

Less than 7 days.
7 - 14 days ✓
15 - 29 days
30 days or more.
I don't know
Not Applicable - Video is not recorded

2nd RISK MANAGEMENT REPORT

Customers & underwriters receive a copy of the risk assessment.

- ✓ **Survey Analysis**
ARMVision's proprietary software and loss engineering-underwriting experts analyze survey data.
- ✓ **Report**
Detailed report with specific suggestions for loss control improvements.
- ✓ **Timing**
Report is delivered within 1 week of survey completion.
- ✓ **Sample Loss Control Recommendation**

Recommendations

Increase the effectiveness of the security system by storing the footage for 30+ days in either analog or digital form. Historic footage from the cameras is an excellent method of confirming the facts when incidents occur. It can be used to either confirm or deny a party's statement and determine responsibility.
