IRONHORSE ESSENCE SKIDDER EDITION

RADIO CONTROLLED • ADJUSTABLE CHASSIS • FORESTRY WINCH

EQUIPPED FOR FORESTRY

The Ironhorse Essence, Skidder edition, is a really versatile machine and equipped for skidding- and forestry tasks.

The skidding winch with the tilting anchoring plate comes in two versions, one using the integrated winch or with a more powerful winch with more torque and longer wire.

READY FOR OTHER USE

The butt plate and the bigger forestry winch is an add-on that's easily removed and gives the user the advantages of using the machine for other tasks, like:

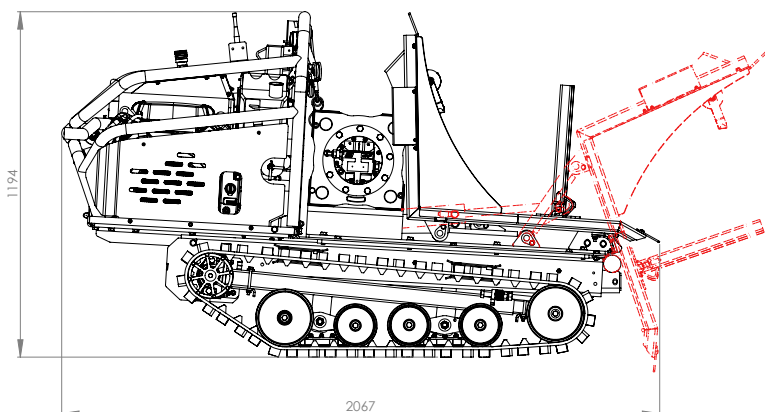

- as a forester with a trailer,
- carrying dirt or gravel with the dumper/tipper
- with the universal lifter, you can attach multiple attachments like brush cutter, fork lift, grapple, etc.

HIGHLIGHTS

- **Radio controlled**
All functions for driving the machine, including the winch via the remote control for secure and easy handling
- **Adjustable chassis**
For maximum traction control, the center of gravity of the chassis, can be adjusted during operation.
- **Forestry winch**
Use the integrated winch or the powerful forestry winch with the tilting butt plate for skidding

Parameter	Data
Weight	750 kg
Loading capacity	1 100 kg
Traction torque	900 kg
Engine	Honda iGX800 25 hp, 18,6 kW. Electric starter
Transmission	Hydrostatic, High/low
Auxillary hydraulics	14 cc, 45 l/min, 180 bar
Electric system	12V, 18A coil, Battery 30 Ah
Tracks	Rubber
Winch(standard)	900 kg torque, 6 mm, 20m
Winch(add-on)	1 800 kg torque, 10 mm, 50m

USING THE TILTING, ANCHORING BUTT PLATE

The butt plate is used both to anchor the machine while winching and also allows the logs to be attached on the platform in a position that maximizes the traction capabilities. All movements are radio-controlled.

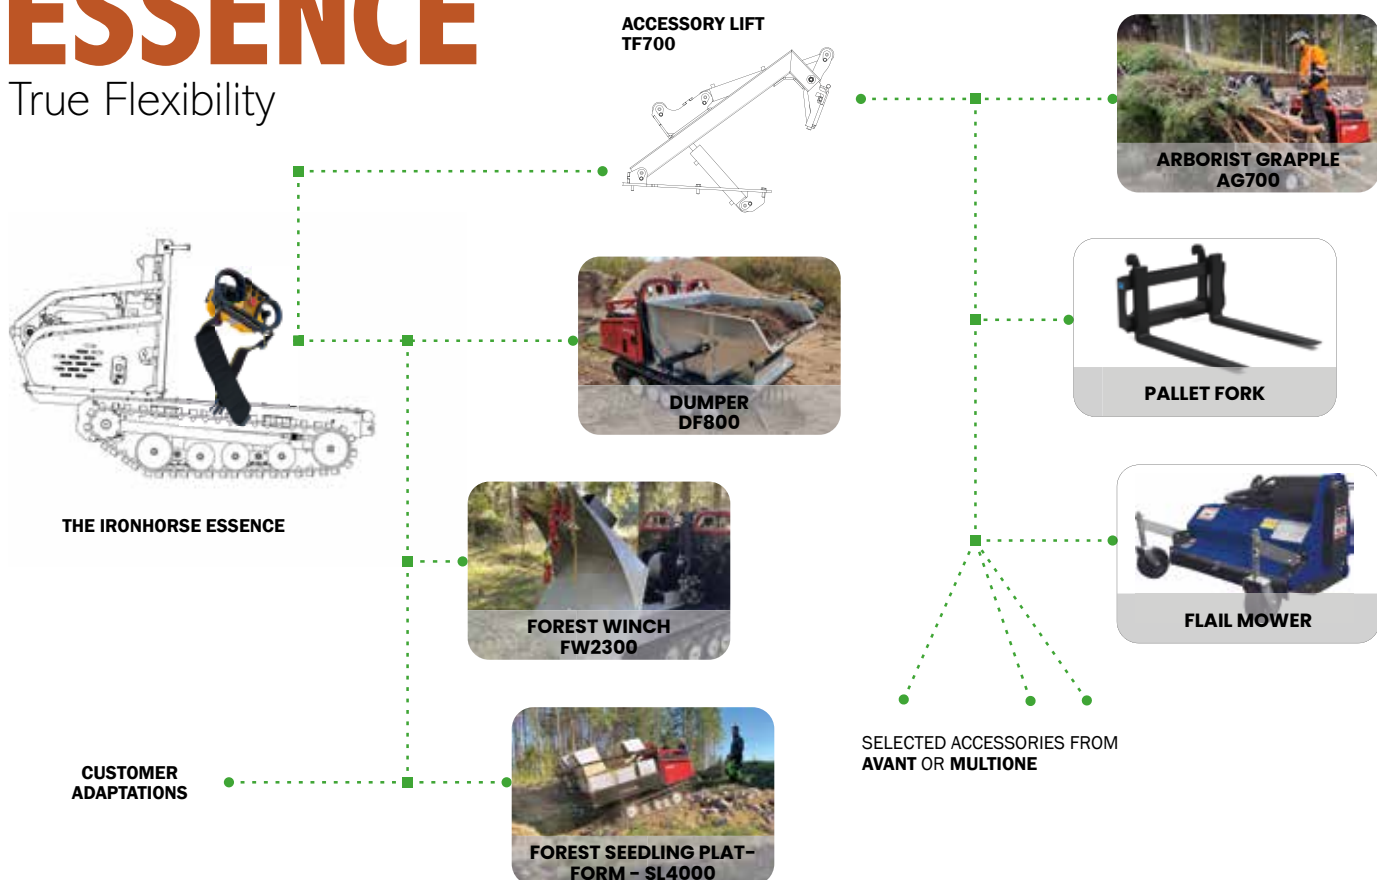

If the optional forestry winch is used, it's possible to use the integrated winch as an extra anchoring point when working in very steep terrain conditions or heavy winching tasks.

The tilting butt plate can be equipped with a rotating timber bench for a more efficient timber handling.

THE IRONHORSE ESSENCE
