

Karl Bradley is a career public servant who grew up in the South Bay and has called Imperial Beach home for 14 years. As a public school administrator employed by four districts over three decades, Karl oversaw a **billion dollars'** worth of new construction and renovation over the course of his career. Later, Karl took on expanded responsibilities, including oversight of district transportation, food services, maintenance, and IT departments to keep our schools running.

During his career managing public construction, taxpayer oversight, and logistics, Karl operated government budgets and timelines with speed, transparency, and integrity. Imperial Beach needs an experienced and dedicated leader who will fight to balance our budget, oversee the mismanaged sewage crisis, and make investments in our future. **Karl is the most qualified candidate for Mayor** in Imperial Beach and the exact leader we need to guide our city through this next chapter.
