Rolmaster CONVEYORS SINCE 1946

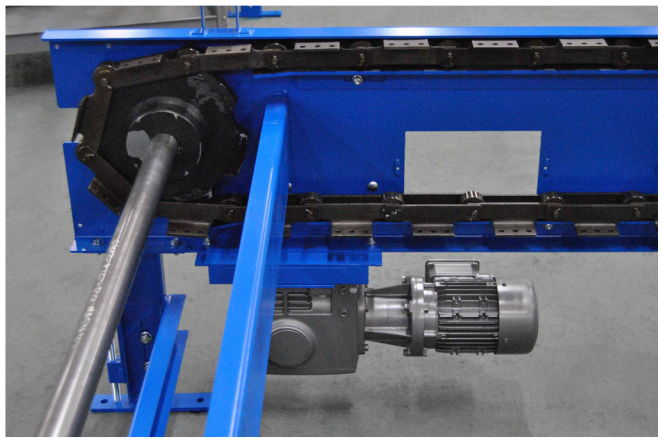

"PROFESSIONAL CONVEYING SOLUTIONS"

SLAT CONVEYORS

DESCRIPTION:

Slat Conveyors are designed for heavy duty applications and long lasting service. They can be used for production assembly lines, robotic cells and many other applications where a flat conveying surface is desired. The positive chain drive allows for accurate indexing. Attachments or fixtures can be easily bolted to the slats to provide support of irregular shaped product requiring accurate positioning or presentation to a robot.

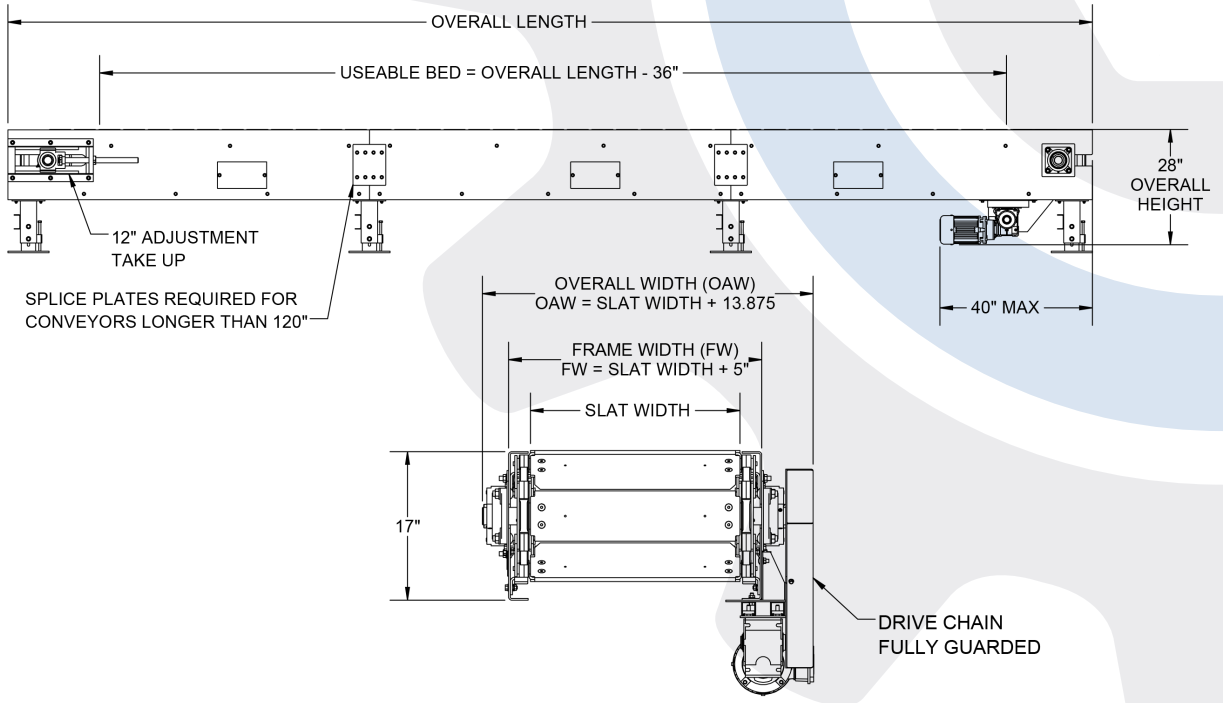

SPECIFICATIONS:
