

New upFLEX Rated Capacity Limiter (RCL) allows owners of older Grove mobile cranes to update to the latest lift management technology.

**UPGRADE WITH CONFIDENCE.
PLUG-AND-PLAY INSTALLATION.**

Features

- The upFLEX Rated Capacity Limiter (RCL) monitors lift activity to ensure a crane works within its rated capacity.
- Drop-in replacement—connects directly to the crane's CAN-BUS via the on-board Ethernet.
- Customers can directly replace older iFLEX models with the new upFLEX to reap the benefits of proven older cranes but also harness the latest technology.
- Sleek modern design. Updated 7" color graphic display, improved menu structure, and smoother navigation.

Compatible with Grove rough-terrain and truck cranes built between 2002 and 2023.
